Nulengths De-Tangled has the formula to combat challenging hair. Micro-conditioners silken and separate strands to help repair damage and prevent breakage. Nulengths De-Tangled has been specifically designed to combat frizzy hair, leaving unmanageable hair hydrated, soft, and manageable with a brilliant shine.

DETOX INTENSIVE HAIR CLEANSER

FOR OILY HAIR AND SCALP CONDITIONS

SUITABLE FOR MEN AND WOMEN. INDIVIDUAL RESULTS MAY VARY.

Often, harsh soaps and shampoos strip hair and skin of their natural oils, leaving you feeling dry all over. NuLengths Detox Natural Hair Cleanser rinse helps to counteract the damage caused by balancing your hair and scalp's natural pH levels. Nulengths Detox Natural Hair Cleanser rinse will help to remove scaly build-up and residue from the hair shaft and close the hair cuticle. Since hair has a naturally low (slightly acidic) pH, our Natural Cleanser rinse will help close the hair cuticle and lock in moisture and protein.

NuLengths Natural Cleanser Rinse will..

- Nourish hair
- Regulate PH
- Moisturise scalp and hair strands
- Prevent hair from shedding
- Promote blood circulation on the scalp
- Aid in hair growth
- Treat dry scalp, fungi, and bacteria

When the cuticle is in good shape, is unbroken, and lies flat, your hair has a smooth appearance. When the layers of the cuticle are tightly knit together, the light is able to reflect off the cuticle, creating tangle-free hair that shines. The cuticle opens when we shampoo our hair. When the cuticle layers are open and not knit together, the hair will feel rough, coarse and brittle. The hair will absorb the light rather than reflect it, which gives the appearance of dull and lifeless hair.

NuLengths Detox Natural Hair Cleanser works as a natural de-tangler and has a tonic action that promotes blood circulation in the small capillaries that irrigate the skin. When used regularly in your natural hair care routine, NuLengths Detox Natural Hair Cleanser will revitalise your hair, leaving it soft and smooth.
